April 30, 2000 Service Changes

Route change - Temporary route change

The north-end loop used by the 84D (Sheppard Stn-Steeles via Oakdale) branch will be temporarily changed, as a result of the City of Toronto project to rebuild the bridge which runs through the intersection of Jane Street and Steeles Avenue. Both roads will remain open, but will be restricted to not more than two lanes at most times. This project will begin in late April, and will last until October. The route change described below will last until mid-October. The routing of the 35A/35E Jane services will also be changed, and additional running time will be scheduled on 60 Steeles West.

The 84D branch will be changed to avoid the Jane/Steeles intersection, and will instead turn around on Sante Drive and Adesso Drive, north of Steeles Avenue, one block west of Jane Street. Buses on this branch will not operate on Steeles between Adesso & Jane, on Jane between Steeles and Hullmar, or on Peter Kaiser Drive. There will be no change to trip times. A walking transfer will be permitted between 84 Sheppard West buses at Steeles & Adesso and 35 Jane buses at Steeles & Jane.
