Temporary route change - construction

Effective July 22 - 25, 2005

Starting 7:00 p.m. on Friday, July 22, until 4:30 a.m. on Monday, July 25, the City of Toronto will begin reconstructing the eastbound lanes of The Queensway, between High Street and Glendale Avenue. As a result, power will be shut off to the streetcar overhead wire under the bridge and **501/301 QUEEN** streetcars will be turned back east at Roncesvalles Avenue. A **501/301 QUEEN** replacement bus will run between Roncesvalles Avenue and Long Branch Loop, diverting, both ways, via The Queensway and Park Lawn Road, as shown below. At Humber Loop, customers must board **501/301 QUEEN** buses at temporary stops, on the The Queensway. Please transfer between routes **501 QUEEN** and **66 PRINCE EDWARD** or **80 QUEENSWAY**, at Stephen Drive.

Two additional weekend dates (August 5-7 and August 12-14) have been scheduled to complete the work.
