

# Monday-Friday Rush Hour Improvement Starting Tuesday, September 8

Monday-Friday rush hour riding is on the increase on the "58B Westwood" branch of the route, so we're improving the service. Buses will now run every 19 minutes during the morning rush and every 23 minutes during the afternoon rush between Lawrence West Station on the SPADINA subway line and Westwood Mall in Malton. 58B buses do not run via the Airport.

Co-incident with the improvement to rush hour "58B Westwood" rush hour service, "58A Airport" rush hour service will be provided every 9-10 minutes during the morning rush and every 11-12 minutes during the afternoon rush. There'll continue to be frequent rush hour service on Lawrence, Dixon Rd. and Airport Rd. between Lawrence West subway station and the entrance to the Airport.
